4. On the next screen, choose **Prepare for Common Placement Exams** and that **Go To Goal** box
5. You are now ready to start! If you click “Show Details” it will tell the things to be tested. Click on the **START DIAGNOSTIC** box. This determines your level of readiness for your study path. The diagnostic tool takes about one hour but the program will save your progress if you need to stop before the end. Press the **START TEST NOW** box.
6. You will do the same steps to do the Math Prep Diagnostic, too.
7. This tool is made to help you prepare for Reading, Writing, and Mathematics for the ACCUPLACER which is very similar to the Indiana CASA exam.
8. The Educator Preparation Program welcomes your feed-back on this free study tool!
