Somewhat True						answered question
Mostly True						19
very true						19
Average Rating						0

Q9. Would you like to make further comments?	
1	Although I have not had a Hanover College student teacher for the past several years, the ones I have had have been very well-prepared. I truly have enjoyed working with them and the faculty of the Hanover College Education Department.
2	The mentoring process is a positive experience for me as a teacher because it brings a fresh pair of eyes into the classroom, and it also makes me more aware of my teaching practices.
3	Always enjoy working with Hanover students. Keep up the good work
4	I believe that HC needs to use better tools to evaluate their teacher candidates. Some of the forms that mentor teachers are asked to fill out for evaluations do not speak well to a candidate's teaching ability. I understand the need to emphasize teaching standards but HC needs a clearer focus on what they want teachers coming from HC to be able to do. Standards are good to use as guidelines but develop an idea of what an HC teacher should look like and evaluate based on that.
